

FOSSIL FUEL MAN

Now I don't care if it's non-renewable
What matters is: is it screw-able?
You see, I'm in it for the short-term gain
I don't worry about the planet's pain!

Hey I'm the fossil-fuel man
gonna burn it while I can
I'll buy you up I'll buy you off
I loot I pollute I watch you cough!

I wear a chain-saw round my neck
cut the rain-forest all to heck
got no room for orang-u-tans
cuz I'm the fossil-fuel man!

Hey I'm the fossil-fuel man
gonna burn it while I can
got dominion over bird and beast
yeah come and join the
first-world feast!

oh watch the jungle disappear
makin' pasture for some steers
grind 'em up and make big macs
animal fat makes heart attacks!

Hey I'm the fossil-fuel man
gonna burn it while I can!
Reagan told us trees pollute
let the rain get acid— I'll get the loot!

Manuel thought he'd grow some food
well I soon put him in a different mood
yeah I had his ass killed ain't that a shame
and I put his yard into sugar-cane!

Hey I'm the fossil-fuel man
gonna burn it while I can
never mind the starving peasants
I'll ride out and shoot some pheasants!

Look at those nuns and left-wing filth
tryin' to redistribute the wealth
Now don't they know I'm a mighty land-lawd
I got me a right-wing death squad!

Hey I'm the corporate oil man
gonna squeeze it while I can
who cares about energy from the sun?
I'll just take the money and run!

Americans are you proud of Desert Storm?
Do Patriots and Tomahawks make your hearts warm?
Human blood is a price we can pay.
Drive to the pump fillerup with Type A!

Hey I'm the fossil-fuel man
gonna burn it while I can
I'll buy you up I'll buy you off
I loot I pollute I watch you cough!
